

Atlantic Global Plc

Board Change

The Board of Atlantic Global Plc, the specialist provider of integrated business and resource management software applications, today announces the amicable resignation of Mark Allcock as Sales Director in order that he may pursue other business interests. The Board would like to thank him for his contribution towards the Group. The Group expects to finalise the appointment of a replacement as soon as possible.

Following the recent appointment of David Cox as Non-Executive Chairman and the further development of the sales and marketing team, the Group also announces the appointment of two additional senior sales executives.

In addition to the above, the newly created position of marketing manager is expected to be filled within the near future.

Group sales for the year to date remain significantly ahead of the first quarter of last year with profits ahead for the same period, despite the costs of the expansion strategy implemented since the year-end.
